

REGISTRO ÚNICO DE PROYECTOS DE INVERSIÓN

RUPI

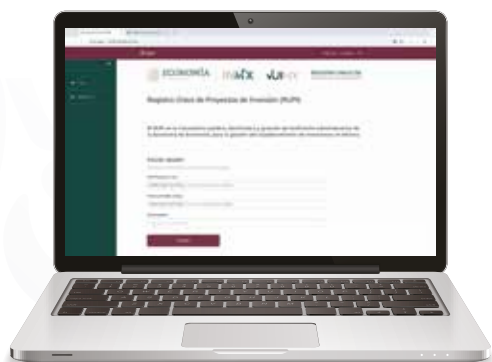

The Single Registry of Investment Projects is an electronic and free administrative facilitation mechanism for the establishment of investment in Mexico.

- ▶ It is aimed at investment projects equal to or greater than US\$100 million dollars or its equivalent in local currency.
- ▶ The Secretariat of Economy will provide accompaniment and follow-up during the investment implementation process.

What does it provide?

Legal certainty to investors concerning the attention time of the procedures related to the establishment of the registered investment projects.

The accompaniment through the RUPI:

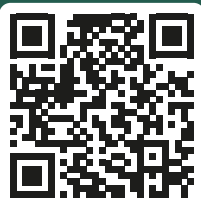

It guarantees attention within the established deadlines, without implying a reduction in requirements or a favorable resolution of the procedure.

It does not generate any additional obligations for the investors.

Accompaniment process
